

Coastal Perspectives Lecture Series

Spring of 2019

7:30p.m. - UConn Avery Point Auditorium

Please join us for our 23rd season. This annual lecture series attempts to span the breadth of human interactions with coastal waters, including speakers from the natural and social sciences.

February 12 – Charles C. Buffum, Jr., Owner/Manager of Cottrell Brewing Co. (Pawcatuck); Craig Harger, Retired, Industrial Gas Specialist

“Perry's Revenge: The story and discovery of the wreck of the USS Revenge”

February 26 – Allison M. Dussias, Associate Dean and Professor at New England Law, Boston

“Water Quality and (In)equality: Protecting Tribal Sustainance Fishing Rights in Maine”

March 12 – Anthony Medrano, Harvard University Center for the Environment/Department of History, Harvard University

“From Pacific outposts to biological hotspots: Ocean history in the age of climate change”

March 26 – Sylvain De Guise, Professor of Pathobiology and Veterinary Science and Director, Connecticut Sea Grant, UCONN

“Long-term effects of the Deepwater Horizon oil spill on bottlenose dolphins in the northern Gulf of Mexico”

April 9 – Jason W. Smith, Southern Connecticut State University

“Shallow Thinking: science, violence, and American imperializing along the littoral”

book signing

April 23 – Kara Lavender Law, Ph.D., Sea Education Association

“Ocean plastics pollution from sources to solutions”

Lecture series is **FREE** and open to the public.

UConn Avery Point Auditorium, 1084 Shennecossett Road, Groton.

Enter from the Academic Building main entrance, auditorium is on second floor at end of hall (disabled accessible); or enter through the Student Center, go up two flights of stairs.

This series is sponsored by **UConn Avery Point**, the **UConn Department of Marine Sciences**, the **UConn Maritime Studies Program**, and the **Connecticut Sea Grant College Program**.
