

Please note – you are not able to turn on your video, nor can you unmute.

We expect a large audience, so those features have been disabled. The host can unmute you and enable video upon request.

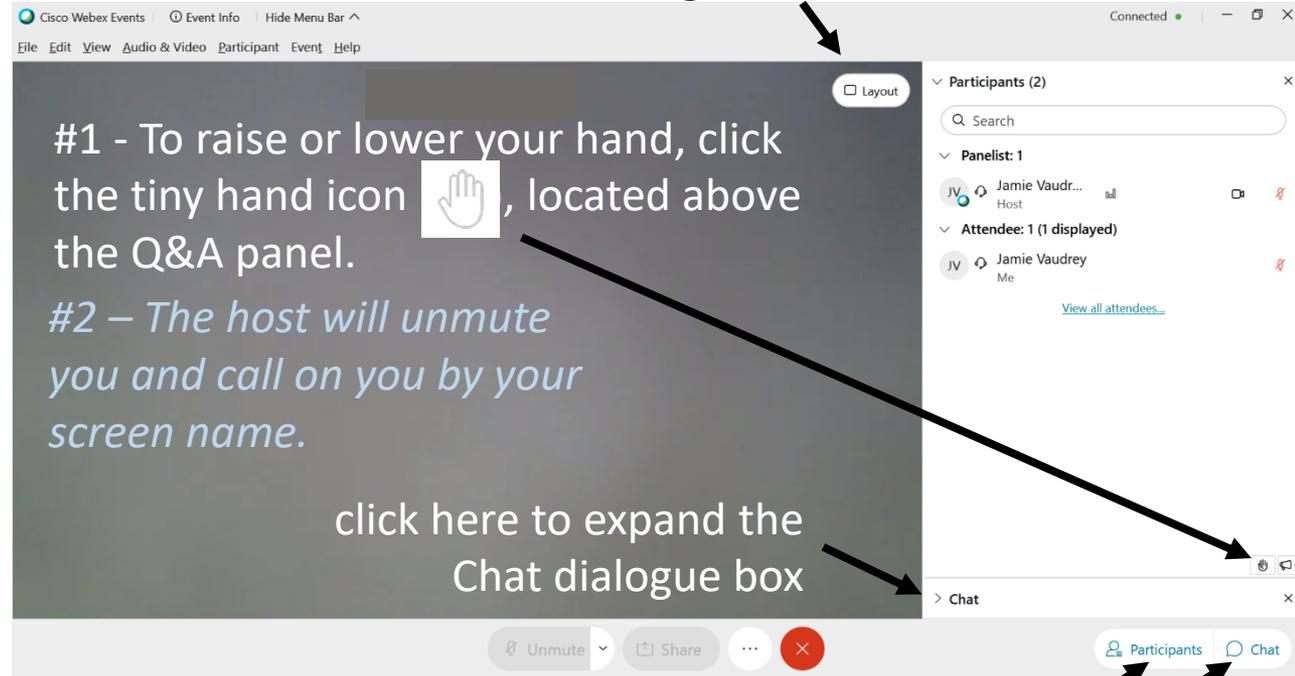

Verbal Comments & Questions

From a computer/tablet, follow the steps in the diagram to the right.

From a phone (with no computer connection):

1. Raise your hand by typing on your phone: *3
2. When you hear a message that you are unmuted, the host will call on you as a “phone-in caller.”

Change what is shown on screen.

The screenshot shows the Cisco Webex Events interface. A dark grey overlay contains the following text: "#1 - To raise or lower your hand, click the tiny hand icon , located above the Q&A panel." and "#2 – The host will unmute you and call on you by your screen name." Below this, it says "click here to expand the Chat dialogue box" with an arrow pointing to the chat icon in the bottom right. Another arrow points from the text "Change what is shown on screen." to the "Layout" button in the top right. A third arrow points from the text "Click 'Participants' to see who is online." to the "Participants" button in the bottom right. A fourth arrow points from the text "Chat box missing? Click here to turn it on." to the "Chat" button in the bottom right. The interface also shows a "Participants (2)" panel on the right with a search bar and a list of participants: "Panelist: 1" (Jamie Vaudrey, Host) and "Attendee: 1 (1 displayed)" (Jamie Vaudrey, Me). The bottom bar includes "Unmute", "Share", and "Participants" and "Chat" buttons.

Click “Participants” to see who is online.
Chat box missing? Click here to turn it on.

Written Comments & Questions

Type into the chat box. (Please direct your comment to “Everyone,” the default.) Your question will be read aloud.
